

Mr. Saad Omar Albaiz

CEO of Athaab Group

Saad Omar Albaiz is regarded as one of Saudi Arabia's prominent leaders, possessing extensive professional and executive experience spanning both the public (military) and private sectors. He began his professional career in the Royal Saudi Air Force after earning a Bachelor's degree in Aviation Sciences in 1976, during which he progressed through several senior leadership positions.

Throughout his military service, which extended until 2005, he gained deep expertise in leadership, discipline, and operations management. During his service, he was involved in specialized programs and strategic projects both domestically and internationally, received advanced training in the United States and the United Kingdom, and collaborated with multinational teams. He retired from the Royal Saudi Air Force on September 5, 2005, with the rank of Major General Pilot, after which he transitioned to the private sector.

In November 2005, he joined Athaab Group as Deputy General Manager for Projects and Business Development. In October 2006, he was appointed Vice President for Administration and Human Resources, overseeing several critical departments and services, including Human Resources, Administrative Affairs, Legal Affairs, Public Relations, and Information Technology.

On July 2, 2017, he assumed the position of Chief Executive Officer of Athaab Group, where he led the organization toward enhanced institutional performance, strengthened strategic partnerships, and expansion across multiple sectors, including telecommunications, technical services, operations and maintenance, investment, and integrated solutions.

In addition to his executive responsibilities, he serves on the boards of several limited liability companies as well as publicly listed companies, and is actively involved in charitable work. His leadership is distinguished by a strategic vision focused on operational efficiency, human capital development, and the reinforcement of corporate governance, in alignment with the objectives of Saudi Vision 2030.
